

## Fact Sheet

(Status: November 2023)

On the north-eastern shore of the Dead Sea in Jordan lies a five-star resort of a special kind, one that offers unique and stunning views – the Mövenpick Resort & Spa Dead Sea – which enjoys one of the most extraordinary locations in the world.

More than 400 meters below sea level, nestling on the northern banks of the historic Dead Sea, the resort has been built in the style of a traditional Arabic village using local stone and lush gardens to seamlessly reflect the natural wonder of the surrounding desert landscape.

The Resort, which opened in 1999, is easily reached by car from Amman International Airport in only 40 minutes, making it the ideal starting point for day excursions to Jordan’s premier tourist sites. This is truly a unique spot for a perfect holiday, with an exemplary combination of natural tranquility, year-round filtered sunshine, high atmospheric pressure, and ozone-rich air, not to mention the world-famous mineral-rich salt waters of the Dead Sea.

The 346 rooms and suites are spread out among comfortable guest bungalows and the main building, each with a terrace or a balcony overlooking the landscaped gardens or the Dead Sea itself.
